

Infrastructure Railroad Mileposts

Test

File Name	Infrastructure_RailroadMileposts	
Description	Alaska Railroad mileposts compiled from a GPS survey by Mullikin Surveys in 2005. Data was delivered to MSB GIS by ARR as KML file that was converted into GDB format and then published as shapefile.	
File Type	Shapefile	
Geometry Type	point	
Attributes	FID	Internal feature number.
	Shape	Feature geometry.
	Name	Rail line and milepost info.
	RR_MP	Railroad Mileposts - supplied by ARR in the Name field, but simplified by MSB GIS for cartographic purposes.
Coverage Area	This dataset includes mileposts for the Alaska Railroad (ARR) within the State of Alaska.
